## The Caldera

Oia is the most popular place on the island to watch the sunset with many bars and restaurants offering a great view over the caldera. It's also known for its shops.

Imerovigli and Firostefani are not as busy as Fira and Oia but still have great views of the caldera and sunsets.

The east side of Santorini has many secluded beaches and fishing harbours but amenities are limited outside the main resorts

Fira old port - take a donkey ride down to the harbour

Fira is the island's capital with shops, bars, banks and restaurants. A great place to sit over a drink and a meal and watch the sunset or simply take in the awesome view!
